

Damovo Boilerplates

Please see below three versions of our boilerplate “About Damovo” – to be used in different scenarios

1. About Damovo (Formal tone for analysts/PR)

Damovo is a global technology service provider that supports businesses worldwide on their path to digitalisation. Our comprehensive portfolio includes solutions in the areas of cybersecurity, enterprise networks, unified communications & collaboration, contact centers, and global managed services.

With a clear focus on seamless integration, we connect people, processes, and systems, offering the transparency, flexibility, and network stability and security that are essential in today’s business environment.

We operate in Europe, America, as well as the Asia-Pacific region, providing global support in over 150 countries. Together with our customers, we analyse their business challenges and deliver fully integrated technology solutions that continually enhance both business performance and the user experience.

2. About Damovo (Conversational tone for Corporate Brochure)

Damovo is a global technology service provider, supporting businesses worldwide on their journey toward digitalisation. With our solutions in the areas of cybersecurity, enterprise networks, unified communications & collaboration, contact centers, and global managed services, we help our customers elevate their communication and collaboration to new levels.

Our mission is to seamlessly connect people, processes, and systems while ensuring the transparency, flexibility, and stability required in today’s business environment.

With over 600 dedicated employees, we are active in Europe, America, as well as the Asia-Pacific region, offering global support in more than 150 countries. We work closely with our customers to understand their challenges and develop tailored technology solutions that continuously improve their business performance and user experience.

3. About Damovo (Used on the “life@damovo” website):

At Damovo, everything revolves around Data, Mobility, and Voice – the three pillars that define our work. Simply put: With us, you’ll enhance how people around the world communicate and collaborate – increasingly with the help of artificial intelligence.

Our expertise lies in planning, integrating, and operating innovative communication and collaboration tools for businesses. We rely on the best technology from our partners, such as Avaya, Cisco, Mitel, and Microsoft, and develop customised solutions tailored to our customers’ needs. Where necessary, we create our own solutions and give our employees the freedom to bring their ideas to life.

As a global technology service provider, we support businesses worldwide on their digital transformation journey. Our portfolio includes cybersecurity, enterprise network solutions, unified communications & collaboration, contact centers, and global managed services. With over 600 employees, we are present in Europe, America, as well as the Asia-Pacific region, offering global support in over 150 countries.

We stand for transparency, flexibility, and stability, helping our customers connect people, processes, and systems seamlessly. Our fully integrated technology solutions contribute to the continuous improvement of business performance and user experience.

With us, you’ll find an international and innovative work environment with over 600 colleagues from diverse backgrounds. Despite our decades of experience, we’ve maintained a culture of openness and innovation. We offer you the opportunity to work in a competent and motivated team where fun is never in short supply.
